Education in Switzerland?

Switzerland has an excellent and diverse educational system.
We would be pleased to advise you.

Our services

- Information relating to different educational options – university studies or vocational training
- Information relating to specific questions – admission requirements, required language skills, deadlines, accommodation, insurances, ...
- Individual counselling – also in cooperation with a professional career counselling provider
- Assistance in applying for cantonal scholarships and administrative support (only for Swiss nationals)
- Students grants from educationsuisse and private foundations

The Swiss education system

The Swiss education system is characterised by a high degree of flexibility. There are many ways to begin or to change to a different education programme. Applicants with the required qualifications can generally attend their chosen course.
